

# Care instructions

## Basket, Rug, Pouf

### Care

- **Regular cleaning:** Vacuum or brush the product regularly to remove dust and dirt and keep the surface in good condition.
- **Stain removal:** Most stains can be easily removed if treated promptly.
- **Washing:** If necessary, clean the product with a high-pressure water jet from a distance of at least 30 cm and a mild soap. Then allow to air dry.
- **Be careful when choosing brushes:** Avoid aggressive brushes and cleaning products to prevent damage such as cracks or discolouration.
- **Storage:** Store the product dry and covered when not in use. Sewn carpets should always be rolled up on the seam side to protect the sewing thread.

### Stain treatment

- **Non-oily stains:** Clean the stain with a mixture of hot water and half a spoonful of detergent. Dab carefully from the inside to the outside without rubbing. Then rinse with clean water.
- **Avoid stain removers:** Do not use stain removers. If a cleaning agent containing chlorine is used, rinse thoroughly with clean water and avoid direct sunlight while drying.
- **Fat and oil stains:** First remove such stains with acetone and then treat the area as if it were a soluble stain.

**Tip:** Regular vacuuming or gentle brushing helps to prevent dirt build-up and prolong the life of the product.
